DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by JP-A 07-100816 (see the JPO machine translation).

Sections 0004 and 0005, and Figures 1 and 2 describe a resin matrix with a coloring agent that has stones embedded in the matrix, where the matrix is polished to provide a flat surface for the stones with a good appearance and then some of the resin between the stones is removed by water jet to create depressions that have an anti-slip function when the resin matrix and is used as a flooring material.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references were cited in the parent prosecution.
